

Quick Reference Table

Broccoli

Variety	Season	Maturity* (days from transplant)	Head shape**	Head size*	Head colour*	Head size*	Market segment	Comment
Ares* (Experimental)	Spring, summer and autumn	60 - 70	Dome	Medium to Large	Dark blue-green	Small to Medium	Bulk packaging & pre-pack	Exceptionally high yield potential of excellent quality and extremely versatile
Marathon	Only cool	90 - 100 (late)	High dome	Large	Dark blue-green	Medium	Bulk packaging & pre-pack	Very high yield potential of excellent quality
Naxos* (Experimental)	Warm	80-85 (medium)	Dome	Large	Dark Green	Small	Bulk packaging, pre-pack & processing	Excellent heat tolerance, early maturing, very adaptable to different climatic zones
Parthenon <small>P.B.R.</small>	Cool	85 - 95 (medium)	High dome	Large	Dark blue-green	Very small	Bulk packaging, pre-pack & processing	Exceptionally high yield potential of excellent quality
Pharos	Only Cool	85 - 95 (medium)	High dome	Large	Dark blue-green	Very small	Bulk packaging, pre-pack & processing	Exceptionally high yield potential of excellent quality and extremely versatile
SBC1809* (Experimental)	Warm	85 - 95 (medium)	High dome	Large	Dark blue-green	Small	Bulk packaging, pre-pack and processing	Vigorous growing plants that has intermediate resistance to clubroot disease, with an excellent quality head set deep in the plant.
Triton* (Experimental)	Spring, winter and autumn	80-95	Dome	Large	Bright Green	Small to Medium	Processing and pre-pack	Exceptionally high quality heads resulting in very high yield potential

* Characteristics given are affected by production methods such as soil type, nutrition, planting population, planting date and climatic conditions. Please read disclaimer.

P.B.R. WARNING: VARIETY PROTECTED UNDER **PLANT BREEDERS RIGHTS**. UNAUTHORIZED MULTIPLICATION AND/OR MARKETING OF SEED PROHIBITED.

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Sakata Seed Southern Africa (Pty) Ltd Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).

* **Experimental:** This variety does not appear on the current South African Variety list, but has been submitted for registration.

Recent version: Kindly contact Sakata or Area Representative for the most recent version of this Technical Bulletin.
