

# Quick Reference Table Chinese Cabbage

Variety	Maturity class*	Maturity * (days from transplant)	Head shape & size**	Colour	Head wrapping	Cropping season	Plant size*	Field holding ability*	Comment
<b>Natsuki</b>	Early	45 - 50	Barrel 0.2 - 0.5 g	Dark green	Good	Summer	Small to medium	Fair - good	Mainly for the high-end market. Widely adapted, slow to bolt.
<b>Tabaluga</b>	Early	60 - 70	Barrel 0.8 - 2 kg	Dark green	Good	All year round in temperate region	Medium	Fair - good	Widely adapted, slow bolting and early maturing. Performs very well in all areas of South Africa and has good holding ability

\* Characteristics given are affected by production methods such as soil type, nutrition, planting population, planting date and climatic conditions. Please read disclaimer.

**\*\* Head shape:**

**B** - Barrel

**RB** – Round barrel

**TB** - Thick barrel

**C-** Cylindrical

**Disclaimer:** This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Sakata Seed Southern Africa (Pty) Ltd Conditions of Sale before ordering seed.

**Resistance:** is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).

\* **Experimental:** This variety does not appear on the current South African Variety list, but has been submitted for registration.

**Recent version:** Kindly contact Sakata or Area Representative for the most recent version of this Technical Bulletin.
